Catzapp Software Ltd Oü launches a scalable job search solution, app, and platform called Catzapp JOB, a map-based job platform.

Come, see, and experience how the Catzapp JOB app optimizes recruitment processes at the Web Summit, Lisbon – 11th-14th November 2024

Catzapp Software presents a scalable job search platform based on geolocation and maps. The Catzapp JOB platform is designed to enhance recruitment efficiency.

Mission for job seekers:

"Everyone has the right to see all open job positions at a glance, worldwide."

Mission for companies:

"Every company should be able to announce an open position simply and cost-effectively, worldwide."

The Catzapp JOB platform offers entrepreneurs, micro-enterprises, large companies, and educational institutions an extremely simple and streamlined way to 1) post a job or training opportunity, and 2) connect with and communicate with qualified candidates. We address companies' challenges with efficient recruitment and visibility. Open positions or training spots need to be filled quickly and effectively. Catzapp JOB meets this critical need. We reduce the time and complexity it takes to find the right candidates interested in your role.

The Catzapp platform helps refine the candidate search process and improves accuracy, enabling organizations to optimize recruitment without compromising on quality. *"We understand the challenges companies face in finding the right talent quickly,"* says Mika Tampio, Founder and CEO of Catzapp Software. *"Our goal is to simplify, speed up, and streamline recruitment. Catzapp JOB will undoubtedly help companies accelerate recruitment while maintaining focus on quality and business growth."*

Key benefits for companies:

- You can post job openings quickly and accurately to where your potential employees are located.
- Fast and targeted search: Catzapp offers companies an accelerated candidate search process, significantly reducing delays in recruiting for critical roles.
- Scalable for growth: Whether you are a small or large company, Catzapp JOB adapts to your recruitment needs.

- It's a reliable tool for both immediate short-term and long-term hires in line with your staffing strategy.
- Versatile technology: By integrating your company's or organization's job communication directly into the platform, Catzapp JOB eliminates unnecessary delays and ensures faster, more direct interaction between employers and candidates.

Key benefits for job seekers:

- See open job positions at a glance on a world map.
- Just tap the map, and you're ready to express your interest in a job to the employer.
- Browse jobs from all over the world and in different countries.
- Instantly see the jobs located just a few meters away from you.

Live demos of the platform will be available throughout Web Summit 2024, offering an opportunity to explore how Catzapp JOB can support various recruitment challenges and goals.
